

Index - Quarterly Bulletin of IAALD Volume XXXI, 1986

USING THE INDEX

The index combines all types of entries:

- Authors
- Titles
- Institutions (by acronym)
- Subjects

in a single index. Titles are shown in italics. Individuals who are listed as subject entries rather than authors are indicated by the letter in parentheses (N) after the name.

Entries are arranged alphabetically, word by word, using the "file as spelled" principle; acronyms are arranged as words.
